Supplying the NHS for over 20 years

PERSONAL PROTECTION EQUIPMENT

Catalogue

Introduction

Crest Medical are specialists and a leading name in the UK First Aid and Medical Supplies market. We provide a comprehensive range of first aid, medical products for occupational health and first aid professionals, to the retail first aid market and distributors. Crest Medical owns a number of brands including one specialising in Personal Protective equipment - McKinnon Medical.

McKinnon Medical has been serving the NHS for over 20 years providing high quality, competitively priced Personal Protective Equipment, infection control products and gloves to medical professionals across a variety of different medical specialities. Our products are certified under European or International standards including the Medical Device Directive [93/42/EEC], and EN 166 personal Eye Protection European Standard.

Combined with excellent and timely service, our strength lies in efficiently responding to rapidly changing market pandemic conditions, consistently protecting our medical professionals against bacteria and viruses they may encounter in the workplace.

Our vision is to continue to be recognised as a key player not only in the United Kingdom but also as a trusted exporter to other European Medical Companies.

Crest Medical is here to help you with all your PPE requirements in order to get you and your teams back to work safely and within the government and your industry guidelines.
